- School environment 2007/2008

BAUSKA SECONDARY SCHOOL NR 2 MULTIFUNCTIONAL EDUCATION CENTER

*„I want to climb the highest mountain”
/ V.Pludons/*

School has its own anthem and symbol – the Owl symbolizing wisdom and knowledge.

BUILDINGS

Bauska Secondary school Nr2 was established in September 1944 when Second World War was approaching its end. Initially it was seven-year school which shared premises with other school at 6 and 9 Riga Street.

1946 school moved to a separate building to 14 Rupniecibas Street and boarding school was at 7 Rupniecibas Street. Some time school spent in Korfa Manor – there were classrooms for elementary school, wrestling gym and boarding school. When school had grown and obtained the status of secondary school, it moved again – to 8 Riga Street.

In 1963 the construction of the new school building at 9 Darza Street was completed but in 1989 an extension was built to it – with spacious assembly hall, canteen and gym. The construction of the new boarding school started very soon, however, only in 2009 after 20 years of waiting and dreaming the dream came true and construction work was completed – but not as boarding school any more - the new multifunctional education center was born!

STUDENTS

Since the day it was established the school has been providing education in Russian language children from Bauska and neighbouring rural municipalities. The first 16 graduates finished school in 1954. Nowadays the number of graduates has reached 2172 and 197 out of them were studying in Latvian language.

Bauska secondary school Nr2 was one of the first schools in Latvia to offer education programme in Latvian and in 2002 first 16 students graduated from primary education programme in Latvian language.

Enabling environment, support for teachers and students, cooperation with parents, permanent raising of motivation, development and interaction between cultures – these are the keystones of our school philosophy.

SCHOOL – MULTIFUNCTIONAL EDUCATION CENTER

School headmaster – Vera Grigorjeva says „Do with love...”

Vera Grigorjeva has been the headmaster since 1982, she is Mag.Paed. with university degree in History, English language teaching, social pedagogy and since 2004 she has been school assessment expert – multiplier by Ministry of Education and Science.

In 2008 Vera Grigorjeva was conferred a Unity Award by Society integration fund for supporting multicultural interaction and her efforts in improving the quality of education.

The headmaster's leading motive is words said by Mother Teresa: „Don't waste your forces trying to do great deeds, do small ones but with great love”. Vera Grigorjeva is convinced that we can always set new targets and take up new challenges improving information technologies, improving the methodology of teaching sciences and raising students' learning motivation.

Our mission:

to stimulate every student and teacher's development efforts and possibilities to become competitive, free and responsible culture personality.

Our vision:

lifelong learning – an inward necessity of a person.
